

Complete the exercise below with the words from the word box.

<b>interpretation</b>	<b>precisely</b>	<b>ghastly</b>	<b>mocking</b>	<b>undeniably</b>
<b>appalling</b>	<b>aggression</b>	<b>state of mind</b>	<b>come in handy</b>	

1. Most virtual reality shooting games, full of blood-splattering scenes, have been judged by some psychologists as encouraging \_\_\_\_\_ in children and teenagers and thus inappropriate for underage individuals.
2. 'Once, when I was an angry 15-year-old, I told my dad to stop nagging at me and leave me alone,' Tyson tearfully recalled, 'and now, with Alzheimer's disease, he never nags at me again because he's forgotten who I am. What an \_\_\_\_\_ feeling to miss someone who has lost the ability to miss you.'
3. An English thesaurus, which may \_\_\_\_\_ when you want to avoid overusing a particular word, is a must-have reference book for all English learners.
4. To this day, survivors of the 2008 Sichuan earthquake are still living under their \_\_\_\_\_ memories of the day when the province was shaken to bits and millions trapped in the remains of fallen buildings.
5. 'What makes this novel a classic in English literature is that its ending is open to \_\_\_\_\_, and that nearly all of the existing interpretations are supported with equally strong evidence,' said the professor.
6. The interviewer decided not to consider hiring Eric when he failed to keep himself from bursting into \_\_\_\_\_ laughter when the interviewer mispronounced his Chinese name.
7. A surgeon, when performing an operation, must execute every procedure \_\_\_\_\_, or patients' lives will be at stake.
8. With a polygraph that can analyse the \_\_\_\_\_ of suspects, the truthfulness of their testimony given during the interrogation can be easily determined.
9. Although there are lots of artificial intelligence (AI) translation software tools on the market, their accuracy is, \_\_\_\_\_, not up to the standard achieved by professional translators.
