Tips for judo

By Katy Jonas

_____ (i) _____

Do you find people with black belt in judo powerful? They always show us how to win the matches with strength. However, as a judoka who has practised judo since primary school, I can say that strength is not the only thing needed for the sport.

_____ (ii) _____

Besides strong muscles, a good attitude is also important to master judo. You may experience a thousand times of failure in your practice, but you should always keep the passion and stay focus. If you are not concentrating on the match, there is no way you can win the game even you have a perfect body. Most importantly, you should always keep a positive mindset in the match. Even though you may not be experienced or strong as your opponent, you have to believe you would win the game. A good mindset can always make you do your best in judo.

_____ (iii) _____

Once you have a fit body and positive mindset, you can enjoy the excitement of judo. It is something you cannot feel from other sports. In judo, you dedicate yourself to the sport and enjoy every moment of the match. You would be **delighted** despite the result of the match.

_____ (iv) _____

Judo is a marvelous sport that brings you excitement, but it can also be a dangerous **one**. Judo requires a lot of physical touch between players. Techniques like throwing may hurt you if you do not protect yourself well. Therefore, do not forget to practise the correct gestures in facing attacks. If you want to be both physically and mentally strong, try judo, but you have to be prepared for the challenges it brings!
