Bonnie is reading an article called 'The Caring Rescuers'. Read it carefully, choose the best answers for Questions 23-27 and complete Question 28.

The Caring Rescuers

What is Animal Rescue?

Animal Rescue is an animal charity that was established in 2002. It takes care of injured animals found in the city. Experienced vets take the role of Friends of Animals who treat injured animals and help them recover. Animal Rescue aims to give love and care to animals. The charity also promotes animal rights and the idea that people and animals can live in harmony.

What does Animal Rescue do?

- Travels to different parts of the city to receive injured animals
- Provides medication or surgery to animals in need
- Places recovering animals in care facilities until they can be released
- Educates the public about ways of caring for animals

Who can be Friends of Animals?

Friends of Animals are workers of Animal Rescue who love animals. Trained vets are employed for the job because they have to know a lot about animals and methods to heal them. Friends of Animals need to have driving licences to receive hurt animals in different places. Animal Rescue gives them medical and animal first aid equipment at work.

Who are Junior Carers?

To encourage people to help animals, Animal Rescue has launched a volunteer scheme called Junior Carers for primary and secondary school students. Participants will learn ways to treat animals properly. Then they can volunteer at Animal Rescue's activities, including assisting Friends of Animals.

How can you help?

There are different ways that you can support Animal Rescue. You can become a volunteer or make a donation online so that Animal Rescue can help more animals in need.
