

Large Animals

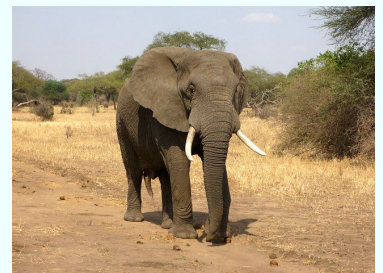

Polar Bears

Polar bears are the largest bears on Earth. Their fur is as white as snow. There are about 21 to 28 thousands bears in the world. They like to walk and look for food on ice.

Elephants

Elephants live in the forests in Asia and Africa. Some of them live in circuses. People in the circuses train elephants to play tricks. You can see them play football, catch food and draw pictures with their noses.

Crocodiles

Crocodiles live in the rivers. You can see them in Asia, Africa, America and Australia. They have big and sharp teeth. They also have a big jaw. They eat fish and animals like birds and zebras.
